Residential New

- **Residential New** Permit types must have a passing **ESC Initial** inspection before other inspections can be scheduled.
- **Foundation Survey** is required after footings, slab, and foundation wall inspections.
- Final **Foundation Survey & Energy Code** documents must be submitted before you can request a “Building Final” Inspection.

ELECTRICAL inspections require that a registered Master or Journeyman be on-site with their current State License card available. If not, the inspection will fail, a fee will be charged, & you will need to reschedule for a time when the master electrician is available.
